

CATA B PNEUMATIC LAUNCHER SYSTEM

Cata B

Cata B is a pneumatic launcher system designed for rapid deployment of one-way effectors and target drones.

KEY FEATURES

Maximum takeoff weight:
400 kg

Launch speed:
55 m/s

Deployment and extraction takes under
3 minutes

Operated via a remote-control panel

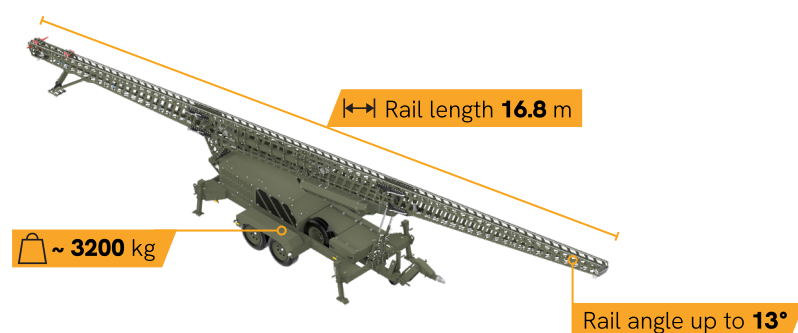

2 operators

Training duration:
1 week

DEPLOYED LENGTH

TRANSPORTATION MEASURES

TECHNICAL SPECIFICATIONS

PERFORMANCE

UAV MASS	Up to 400 kg (see graph)
LAUNCH SPEED	≤ 55 m/s (see graph)
OPERATING TEMPERATURE	-20 °C to +50 °C
MAXIMUM ROAD SPEED	90 km/h

OPERATIONAL

DEPLOYMENT & EXTRACTION	Ready < 3 min
LAUNCH RECOVERY	~ 4 min
REMOTE CONTROL PANEL	Wired 20 m or Wireless 100 m

COLOR OPTIONS

STANDARD COLORS	RAL 6031-F9 NATO Green
	RAL 1019 Desert
OTHER COLORS	Available upon request

RELIABLE, EFFECTIVE, AND EASY-TO-USE

Thousands of hours of battle experience

Used in multiple armed forces, including NATO member states and Ukraine
